

1. K-LOVE is a radio station serving this community by providing meaningful music, news and spiritual guidance from a Christian standpoint. It is the only source of entirely and reliably virtuous broadcast music and information in this area.
2. The displacement of K-LOVE in this or any other community by an LPFM broadcaster would eliminate this enlightening and spiritual entertainment and stifle a supportive faith-based organization.
3. The service provided by K-LOVE is an integral part Christian family values and is a positive, encouraging outlet of music, news and ethical values. This is exactly the kind of faith-based organization President Bush has encouraged to strengthen the moral attributes of our society. K-LOVE's doing good things and growing into new communities - don't lose their translator stations to LPFM stations and ruin a good thing.
